OPTIONS

	<p>DATA FEEDBACK Data feedback on 64X102 pixels graphic display and 4 Leds.</p>
	<p>TORCH Keypad illumination for operations in the darkness or torch. Can be combined with a light sensor.</p>
	<p>I-READY An Infrared directional START operation guarantee the right machine has been picked up.</p>
	<p>MTRS (MULTI TRANSMITTER RECEIVER SYSTEM) It allows the classic Tandem, Catch-Release, Master-Slave working modes and many other configurations demanding the logging In and logging Out capability.</p>
	<p>ENABLING SWITCH The "enabling switch" is a special component that improves safety of machinery operating in hazardous areas thanks to its design that determines if the user is conscious. This 3 positions device activates a machine or a function only when it is at position 2 meaning the operator is present and vigilant. Applicable Standards are: EN60947-5-1, EC60947-5-1, UL508, CSA C22.2 No.14.</p>
	<p>PITool This device allows to interface the transmitting and receiving units to a PC for parameter setting and diagnosis purpose.</p>

DETAILS

	<p>STATUS LEDs Colored LEDs report about the status of the radio link, the battery charge level and make the diagnosis of anomalies.</p>
	<p>PIN CODE Start PIN code can be programmed to restrict the use to authorized personnel.</p>
	<p>LEGENDS Clear and wide pushbutton legends, with the possibility of having fully customized symbols.</p>
	<p>STOP Mushroom head STOP button featuring Functional Safety level PLe/SIL3/Cat4.</p>
	<p>CARRYING BELTS Comfortable carrying belts.</p>
	<p>BATTERY CHARGER BATTERIES Fast charger and extractable rechargeable Li-ion batteries for extra long duration.</p>
	<p>SLEEVE Represents an additional protection that facilitates the use of your WAVE2 even in extreme working conditions, but without altering its ergonomic shape.</p>
